ST. NICHOLAS GREEK ORTHODOX CHURCH

July 30, 2009

To Whom It May Concern:

CANNON CONSTRUCTION CO. of Greenville, SC recently constructed a Family Life Center for St. Nicholas Greek Orthodox Church in Spartanburg, SC. The recently completed first phase of this structure included a gymnasium/banquet facility with a full service kitchen. The second phase will include classrooms, offices and a library.

CANNON utilized the design/build concept which proved very cost effective, and about the only delays we encountered were due to weather and one delay caused by a sub-contractor. The oversight provided by on site supervisors proved to be a very good way of insuring quality workmanship.

Any problems that were encountered by the church committee were addressed when presented and resolved to the satisfaction of all concerned. The whole process was completed in an expeditious and cost efficient manner.

We on the Building Committee were quite pleased and proud of the results of this project. We highly recommend CANNON CONSTRUCTION COMPANY to anyone wishing to utilize their services. We will gladly let any interested party view the results of this effort, and will be glad to answer any questions pertaining to this project.

Very Truly Yours,

Nicholas H. Kekas, Vice President of Parish Council
and Building Committee Chairman
